**BACKGROUND & OVERVIEW**

**Demography**

**Sociology of Health**
Fertility Transition, Diffusion Theory, and Other Perspectives on Fertility Decline.

The Second Demographic Transition & Below-Replacement Fertility

Fertility Issues in Developing Societies

Development Review Supplement to Volume 27.

Fertility Preferences and the Demand for Children

MIGRATION

Theories of Immigration and Migration

**Patterns and Trends**

### Migrants, Segregation and Neighborhoods

### Gender and Family in the Migration Process

Key Books in the Field of Migration Studies (to Skim)

MORTALITY

History, Trends, Transitions
* Johansson -- Epidemics, volume 1, 302-307
* Johansson – Health Transition, volume 1, 479-483
* Morse – Emerging Infectious Disease, volume 1, 283-286
* Riley – Disease and History, volume 1, 251-253
* Robine – Epidemiologic Transition, volume 1, 307-310
* Shkolnikov – Mortality Reversals, volume 2, 676-679
* Wilmoth – Mortality Decline, volume 2, 654-662

Measurement, Data, Analysis
  * Anderson – Census, volume 1, 122-126
  * Arnold – Demographic and Health Surveys, volume 1, 202-204
  * Freedman & Weed – Vital Statistics, volume 2, 960-962
  * Guillot – Event History Analysis, volume 1, 325-329
  * Guillot – Life Tables, volume 2, 594-602
  * Haub – Mortality Measurement, volume 2, 672-675
  * Hill – Estimation Methods, volume 1, 310-314
  * Horiuchi – Mortality, Age Patterns of, volume 2, 649-654
  * Mott&Gyrn – Longitudinal Demographic Surveys, volume 2, 611-615
  * Ostby – Population Registers, volume 2, 763-765
  * Phillips – Demographic Surveillance Systems, volume 1, 204-206
  * Vaessen – Demographic Surveys: History & Methodology, volume 1, 206-210

**Infant & Child Mortality**

**Adult Mortality**

See “Aging” section for readings on longevity, life expectancy, and adult mortality

**Causes of Death**

**Mortality Differentials**

See “Social Context & Health” subsection

**Mortality Crossovers & Paradoxes**

**Web Resources**

[www.cdc.gov](http://www.cdc.gov) – Centers for Disease Control, see “Morbidity and Mortality Weekly Report”
[www.prb.org](http://www.prb.org) – Population Reference Bureau, see the World Population Data Sheet

**POPULATION AGING**

**Population Aging: General and Regional**

Longevity, Lifespan, and Compression of Morbidity

Disability and Active Life Expectancy

Differentials
See section on “Social Context & Health”

Intergenerational Relations, Living Arrangement
See section on “Families and Family Dynamics”

SOCIAL CONTEXTS OF HEALTH

Family, Marriage and Health

**Social Networks, Social Interaction and Health**

**Gender and Health**

**Race/Ethnicity and Health**

SES and Health

**Place Context and Health**

Early Life Exposures and Health

### FAMILY AND FAMILY DYNAMICS

**Marriage: levels, trends, differentials**

**Marriage and cohabitation**

**Divorce: incidence and consequences**

**Families and Households**

Family, intergenerational relations, and support
